A Road to the Top of the Mountain!

A goal we have had for a long time here at Tuckaleechee Retreat Center is to extend our road to the top of the mountain. Some day we want to build an outdoor chapel, picnic pavilion, and restrooms up there, and then enjoy the 360 degree view. It will cost a lot of money! However, the Lord sent us a volunteer who knows how to build mountain roads. He has volunteered his time, labor, and equipment . We will pay for his fuel. We will also need to pay for culverts and the gravel to cover the road. That cost will be approximately \$10,000.

Can you help us with this expense?

Yes, I will donate \$_____ to help build the road to the top of the mountain.
